# LAQUA

Ideal for student training and routine applications.

Great value for money: no fancy bells and whistles which sounds good but are rarely used.

From a reputed manufacturer—one whose company was started with pH meters back in 1945.

**Large Display** ♦  
The 85 x 104 mm display gives easy viewing and operation.

**Small Footprint**  
Only 160 x 150mm footprint, fits easily on every lab desk.

**Stability Indicator**  
The smiley face appears when the value is stable.

**Large Digits** ♦  
Easy to view reading with 28mm high fonts.

**Visual Electrode Status Indicator**  
Shows electrode condition after calibration, giving an accurate indication of the electrode quality.

**Clear Keypad**  
The 9-button operation ensures ease of use. The flat surface makes cleaning easy.

The main image shows the LAQUA PH1500 with a large LCD display showing a pH reading of 7.00 and a temperature of 25.0 °C. The display also features a smiley face icon and a battery status icon. The keypad below the display has nine buttons: CAL, MEAS, DATA, ENT, MODE, SET, and two arrow keys. The brand name LAQUA and HORIBA are visible on the device's face.

The electrode holder can be turned 360° around the arm.
